

**City of Hays  
Fire Department**

## **Smoke and Carbon Monoxide Alarm Program**

Your City of Hays Firefighters will:

- Help you install smoke and carbon monoxide alarms
- Check and change batteries
- Provide smoke and carbon monoxide alarms to low income families and persons with limited mobility

Since 2006 Hays firefighters have installed 1537 smoke alarms and 429 carbon monoxide alarms. These alarms have been provided from generous donations from local citizens. If you have any questions about the smoke and carbon monoxide alarm program or would like to make a donation, contact the fire department at 785-628-7330 or email [leverett@haysusa.com](mailto:leverett@haysusa.com) or [dmccor@haysusa.com](mailto:dmccor@haysusa.com)
