

Sparky's Scavenger Hunt for Poisons

Walk from room to room in your home and see if you can find any poisons with a grown-up. Write down the name of each poison you find. Are they safely stored in their original containers and properly labeled. Put a check mark next to those that are stored safely. Have grown-ups remove any that are not! Grown-ups: Are they out of the sight and reach of your children?

Here's an important rule: **Don't Touch Any Poisons!**
Remember, poisons should be handled by grown-ups only!
